PROFILE

Full-stack developer with 2.5 years of experience building scalable mobile applications using React Native, React.js, Node.js, and cloud technologies.

EDUCATION

Gujarat Technological University
Ahmedabad, India

Master of Computer Applications (MCA)
2021 – 2023

SKILLS

Technical: JavaScript, TypeScript, React Native, React.js, Flutter, Node.js, Redux, REST APIs, GraphQL/AppSync

Tools: Firebase, GCP, Git, Bitbucket, Jira, VS Code, Android Studio, Xcode, Postman, Flutter Flow

CERTIFICATIONS

- Google Data Analytics Foundations – Aug'23 ([link](#))
- **Brilworks Hackathon** - Participation Certificate, 2024
- **Brilworks Hackathon** - Participation Certificate, 2025

EXPERIENCE

Brilworks Software
Ahmedabad, India

Mobile App Developer
May 2023 – Present

- Architected and deployed 15+ scalable mobile applications with 20,000+ daily active users, achieving 4.5-star ratings and 85% user retention.
- Refactored three legacy React Native applications to the newest framework version; accelerated app performance by 40% while decreasing crash occurrences.
- Constructed flexible white-label systems that slash deployment time from weeks to days.
- Integrated features such as real-time chat, push notifications, NFC services, offline synchronization, and support for right-to-left (RTL) languages.
- Mentored junior developers in the React Native ecosystem, code optimization, and professional development workflows.
- Collaborated within Agile teams by participating in sprint planning and daily stand-up meetings.

React Native Intern

February 2023 – May 2023

- Gained proficiency in React Native and the Expo framework through hands-on project development.
- Constructed multiple practice applications to master mobile development concepts.

PROJECTS

Accelevents - Event Management Platform

Nov 23 – Present

Tech Stack: React Native | JavaScript | Redux Toolkit | GraphQL/AppSync | Firebase | Stream Chat | NFC | Mux

- Created a robust event management solution utilizing React Native for both Admin and Attendee applications, enhancing user engagement and operational efficiency.
- Developed 10+ key modules including ticketing systems, QR/barcode scanning, and NFC services to streamline attendee experiences and event logistics.
- Implemented exhibitor lounges, live feeds, meeting scheduling, and session management with real-time data synchronization.

Radio Rangrezz - Music Player Application

Aug 2025 – Present

Tech Stack: React Native | React Native Track Player | Zustand | TanStack Query

- Developed a feature-rich music player application delivering seamless audio streaming and live radio capabilities.
- Implemented AI-generated playlist functionality that curates personalized music recommendations based on user preferences and listening patterns.
- Integrated React Native Track Player for robust audio playback management, ensuring smooth transitions and background audio support.
- Utilized Zustand for efficient state management and TanStack Query for optimized data fetching and caching, enhancing app performance and user experience.

UnitedApp - Inventory Management System

May 2023 – November 2023

Tech Stack: React Native | TypeScript | MobX | Firebase | MMKV | React Native Camera

- Designed an enterprise inventory solution for a major home appliances and furniture vendor.
- Implemented barcode/QR code scanning, inventory management, availability tracking, and sales/purchase activity monitoring.

ACHIEVEMENTS

- Architected 15+ white-label mobile applications and modernized 3+ legacy React Native apps, reducing maintenance time by 50%.
- Built multiple applications using FlutterFlow, integrating advanced features including live video calls and voice communication capabilities.
- Developed an internal taxi booking application during internship, implementing ride booking and payment processing with Stripe.
- Maintained 95% on-time delivery rate across projects, earning recognition for technical expertise and contributing to enhanced client trust.
